

MUP Clients Outfit Guide

Outfit Suggestions/Ideas: Matching is always fun, but you don't have to be wearing the same patterns unless you love that! I suggest wearing complimentary colors and something you feel great in!

No one likes being uncomfortable, so why make the photographic experience that way? In my opinion, it's unnecessary to get all primpy if you're not going to enjoy yourself.

Some people love it and some hate it, so pick *your* style! And if your family doesn't want to match, it's not a big deal, I can make it all work together!

Note: Small/tiny patterns are very distracting, so if you want the focus to be on your lovely faces, I suggest larger patterns if you're going that route!

Blues and White

Who doesn't love denim? Whether it's all jean or all blue, you can never go wrong with this look!

"Non-matching" but matching clothes

No one is wearing the same colors, but it works!

Pops of color!

Comfort and warmth!

Non-patterned pants

Neutral but nice colors

Same Color, Different Shade

I love picking one or two colors and having everyone wear what they have in their closet that is the chosen color! It gives a variety, while also making your photos aesthetically pleasing!
